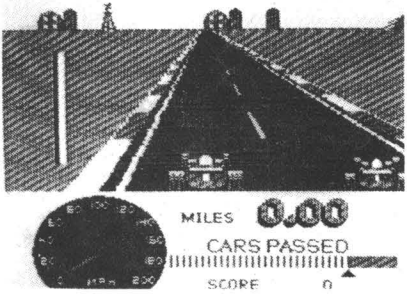
FOR YOUR DRAGON 32 & TANDY COLOUR 32K

IT'S GRAND PRIX DAY!!!



Firstly you must choose one of the four circuits to race at, each varying in difficulty & landscapes. Your goal is to overtake as many cars as you can, and if you reach the target number then you get to compete in the next lap.

You mush avoid driving on the hard shoulder, as this will wear out your tyres. If you ruin your tyres, your repair crew will replace them, but only once per race!!

You view the track as if you were sat in the cockpit of a F1 racing car.

With its realistic "scrolling", graphics — 4 different circuits and roaring sound makes this and you a **"WINNER".**
